

22 December 1999

Left lodging for SVNWR at 7:30 am. Temperature was 55°F. Accompanied by SLC and Terry Peacock (Refuge Manager), carried out site preparation on St. Vincent National Wildlife Refuge from 9:00 am to 3:00 pm. Spent entire time spreading out fifty (50) pre-cut sheets of lumber and sheet metal to attract amphibians and reptiles for future trips to island. Returned to lodging at 4:20 pm.

24 December 1999

Left lodging for SVNWR at 7:30 am. Temperature was 40°F. Accompanied by SLC, KJI and Lisa Irwin. Met Terry Peacock (Refuge Manager) at Indian Pass ferry and collected herps on St. Vincent National Wildlife Refuge from 9:00 am to 3:00 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR on C-30, 1.3 mi E Gulf County line  
*Ophisaurus ventralis* – 1 adult DOR 8:00 am (frost on roadside grass)

Florida: Franklin Co: St. Vincent NWR at Cabin  
*Anolis carolinensis* – adult in hanging spanish moss near SVNWR cabin

Florida: Franklin Co: St. Vincent NWR at Oyster Pond Wood Structure 15-16  
*Alligator mississippiensis* – 7-foot adult basking  
*Apalone ferox* – large adult female  
*Pseudemys nelsoni* – 2 adults

Florida: Franklin Co: St. Vincent NWR at Wood Structure 21  
*Bufo terrestris* – active by day

Florida: Franklin Co: St. Vincent NWR at Wood Structure 25  
*Rana sphenoccephala* – active by day

Florida: Franklin Co: St. Vincent NWR at Sheet Metal Structure A  
*Alligator mississippiensis* – 5-foot adult basking

Florida: Franklin Co: St. Vincent NWR at Indian Pass ferry  
*Anolis carolinensis* – 1 adult (brown) under slab of wood at 3:30 pm

Florida: Franklin Co: Indian Pass ferry on mainland  
*Ophisaurus ventralis* – adult under sheet metal at 4:00 pm  
*Coluber constrictor* – adult sheet metal at 4:00 pm

Florida: Franklin Co: St. Vincent NWR on C-30, just E Gulf County line  
*Thamnophis sirtalis* – 1 large adult DOR 4:40 am

28 December 1999

Left lodging for SVNWR at 7:30 am. Temperature was 47°F. Accompanied by SLC, KJI, and LKI. KJI searched mainland and caught the following:

Florida: Franklin Co: Indian Pass ferry on mainland  
*Coluber constrictor* – adult sheet metal at ca. 8:15 am

Met Dale (Refuge employee) at Indian Pass ferry at 8:30 am and collected herps on St. Vincent National Wildlife Refuge from 8:45 am to 3:30 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR at Oyster Pond at Wood Structure 17-20

*Apalone ferox* – large adult female in pool at 11:00 am near Structure 17  
*Pseudemys nelsoni* – 1 adult in pond at 11:00 am near Structure 17  
*Rana sphenocephala* – adult dead in pool at 11:00 am near Structure 17  
*Scincella lateralis* – 1 adult at 11:00 am under Structure 18

Florida: Franklin Co: St. Vincent NWR just NE Wood Structures 15-16

*Pseudemys nelsoni* – 1 adult in pond at 11:45 am near Structure 17

Florida: Franklin Co: St. Vincent NWR at Wood Structure 5

*Scincella lateralis* – 1 adult at noon under Structure 5

Florida: Franklin Co: St. Vincent NWR at Wood Structure 17-20

*Scincella lateralis* – 1 adult at 1:30 pm under Structure 18  
*Scincella lateralis* – 1 adult at 1:30 pm under Structure 19

Florida: Franklin Co: St. Vincent NWR near Wood Structure 13-14

*Sistrurus miliarius* – 1 adult at 2:15 pm under decaying Cabbage Palm log

29 December 1999

Left lodging for SVNWR at 7:30 am. Temperature was 41°F. Accompanied by KJI and LKI. Met Robert Gay at Indian Pass ferry at 8:30 am and collected herps on St. Vincent National Wildlife Refuge from 8:45 am to 2:30 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR at Wood Structure 15-16

*Scincella lateralis* – 2 adults at 10:15 am under decaying Cabbage Palm logs  
*Hyla squirella* – 2 adults at 10:15 am under decaying Cabbage Palm logs

Florida: Franklin Co: St. Vincent NWR btwn Road A and Dune Road

*Scincella lateralis* – 1 adult at 10:30 am under decaying Cabbage Palm logs  
*Sistrurus miliarius* – 1 adult at 10:15 am under decaying Cabbage Palm logs

Florida: Franklin Co: St. Vincent NWR just SE Cabin

*Terrapene carolina* – shell of adult at 11:30 am

Florida: Franklin Co: St. Vincent NWR near Wood Structure 4

*Scincella lateralis* – 1 adult at noon under decaying Cabbage Palm logs  
*Anolis carolinensis* – 1 adult at noon under decaying Cabbage Palm logs  
*Sistrurus miliarius* – 1 adult at noon under decaying Cabbage Palm logs

Florida: Franklin Co: St. Vincent NWR on Dead End One Road (1:00 pm to 2:15 pm)

*Scincella lateralis* – 8 adults under decaying Cabbage Palm logs & palm fronds

*Alligator mississippiensis* – adult skull left by poacher

*Coluber constrictor* – 1 juv under decaying Cabbage Palm logs & palm fronds

*Thamnophis sauritus* – 1 subadult under decaying Cabbage Palm logs & palm fronds

*Virginia striatula* – 1 adult under decaying Cabbage Palm logs & palm fronds

30 December 1999

Left lodging for SVNWR at 7:30 am. Accompanied by KJI, LKI & Thom Lewis (USFWS Biologist). Drove to Indian Pass ferry at 9:30 am and collected herps on St. Vincent National Wildlife Refuge from 9:45 am to 6:00 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR along Jungle Road Loop (10:30 am to 1:30 pm)

N29-38-03.1, W85-07-16.3

*Hyla squirella* – 1 adult under palm fronds

*Anolis carolinensis* – 1 adult under Cabbage Palm log (brown)

*Scincella lateralis* – ±35 adults under Cabbage Palm logs & palm fronds

*Coluber constrictor* – 1 juv sunning on decaying Cabbage Palm log

*Coluber constrictor* – 1 clutch 7 hatched eggs in decaying Cabbage Palm log

*Coluber constrictor* – 1 clutch 11 hatched eggs in decaying Cabbage Palm log

*Thamnophis sauritus* – 2 adults in decaying Cabbage Palm log

*Thamnophis sauritus* – 1 adult in rotten hole of Live Oak Tree 7-8 feet above ground

*Virginia striatula* – 1 adult under Pine log

Florida: Franklin Co: St. Vincent NWR at Cabin (2:00 pm)

*Alligator mississippiensis* – 1 5-foot adult sunning in channel

Florida: Franklin Co: St. Vincent NWR at Cabin (2:10 pm)

*Crotalus adamanteus* – vertebrae from adult killed in November 1999

Florida: Franklin Co: St. Vincent NWR at Oyster Pond Control Structure (2:15 pm)

*Apalone ferox* – large adult female in pool near Wood Structure 17

*Pseudemys nelsoni* – 4 adults in pond near Wood Structure 17

*Alligator mississippiensis* – 1 9-foot adult sunning in channel near Wood Structure 17

*Scincella lateralis* – 1 adult under Wood Structure 18

*Scincella lateralis* – 2 adults under Wood Structure 34

Florida: Franklin Co: St. Vincent NWR at Outlet Creek Loop (2:20 pm to 3:30 pm)

*Scincella lateralis* – 8 adults under Cabbage Palm logs & palm fronds

*Sistrurus miliarius* – 1 adult in Cabbage Palm log

*Thamnophis sauritus* – 1 adult under Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR at Oyster Pond outlet (4:00 pm)

*Alligator mississippiensis* – 1 5-foot adult sunning in channel

31 December 1999

KJI & LKI left lodging for SVNWR at 9:30 am. Accompanied by Thom Lewis (USFWS Biologist), they drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from noon to 4:00 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR, Tahiti Beach, Palm Hammock (noon to 1:00 pm)

*Scincella lateralis* – 3 adults under debris

*Coluber constrictor* – 1 clutch 13 hatched eggs in decaying Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR, SWJ6 Road (1:20 pm)

*Alligator mississippiensis* – 1 3-foot specimen AOR

Florida: Franklin Co: St. Vincent NWR, SWI5 Road (1:30 pm to 2:15 pm)

*Anolis carolinensis* – 1 adult basking on saw palmetto

*Scincella lateralis* – 3 adults under debris

*Elaphe guttata* – 1 subadult under bark of dead Live Oak

Florida: Franklin Co: St. Vincent NWR, Oyster Pond Control Structure at Road B

(3:30 pm)

*Alligator mississippiensis* – 1 10 to 12-foot specimen basking

3 January 2000

SLC, JTC, JDC, & KJI left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from noon to 2:00 pm. Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR at lower end of Oyster Pond

*Scincella lateralis* – 2 adults under debris at 9:45 am

*Apalone ferox* – shell parts from an adult at 9:45 am (KU 000000)

*Thamnophis sauritus* – 1 adult under palm frond at 9:45 am

*Coluber constrictor* – 1 clutch 12 hatched eggs in decaying Cabbage Palm log (photo)

Florida: Franklin Co: St. Vincent NWR along S edge Oyster Pond on Road A

*Alligator mississippiensis* – 1 5-foot specimen at 10:15 am

Florida: Franklin Co: St. Vincent NWR at upper end of Oyster Pond

*Apalone ferox* – 2 adults at 11:00 am

*Pseudemys nelsoni* – 9 adults at 11:00 am

*Alligator mississippiensis* – 1 5-foot specimen at 11:00 am

Florida: Franklin Co: St. Vincent NWR along Rattlesnake Road

*Scincella lateralis* – 5 adults under palm fronds at 1:45 pm

*Virginia striatula* – 4 adults in Palm Cabbage logs at 1:45 pm

Visited the Apalachicola Estuarine Research Lab at 3:00 pm. JDC caught the following:

Florida: Franklin Co: Apalachicola, Estuarine Research Lab

*Coluber constrictor* – 1 juv under rock

Kelly Irwin visited with Thom Lewis and acquired copies of important reports and publications. He also obtained and preserved the following:

Florida: Franklin Co: St. Vincent Island at Indian Pass

*Amphiuma means* – dead adult picked up and frozen by Thom Lewis on 30 January 1999  
Specimen donated to J. T. Collins (KU 000000).

4 January 2000

LKI, JTC, JDC, & KJI left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 10:00 am to 3:30 pm. Temperature at 7:45 am was 68F. Very humid. Observed or collected the following:

Florida: Franklin Co: St. George Island, W end Plantation on Blue Heron Trail

*Bufo terrestris* – 1 adult under cement parking pad at 7:30 am

Florida: Franklin Co: Indian Pass mainland

*Ophisaurus ventralis* – 2 adults under sheet metal at 9:00 am

Florida: Franklin Co: St. Vincent NWR just E Picaline Area along Road G (10 am to noon)

*Scincella lateralis* – 5 adults under palm fronds

*Anolis carolinensis* – 1 adult active by day (brown)

*Agkistrodon piscivorus* – 2 (1 adult sunning on palm fronds; 1 subadult active by day)

*Coluber constrictor* – 1 clutch 12 hatched eggs in decaying Cabbage Palm log

*Crotalus adamanteus* – 1 4.5-foot adult active by day (rattle voucher)

*Elaphe obsoleta* – 1 4-foot adult active by day in palmetto thicket

Front passed across island at 11:30 am; light rain for half an hour. Mostly cloudy.

Florida: Franklin Co: St. Vincent NWR near Structures J-K (1:00 pm to 1:45 pm)

*Scincella lateralis* – 1 adult under palm frond

*Anolis carolinensis* – 3 adults under palm fronds and logs (brown)

*Cnemidophorus sexlineatus* – 1 adult burrowed in white sand under black tarp

Florida: Franklin Co: St. Vincent NWR near Structures F-I (1:45 pm to 2:00 pm)

*Coluber constrictor* – 1 clutch 9 hatched eggs in decaying Cabbage Palm log

*Thamnophis sauritus* – shed skin under standing pine bark

*Elaphe guttata* – shed skin of juv under standing pine bark

5 January 2000

LKI, JTC, SLC, & KJI left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 9:30 am to 4:00 pm. Temperature at 7:45 am was 40F. Sunny.

Spent from 9:00 am to 10:30 am marking wood structures 36 through 42.

Observed or collected the following:

Florida: Franklin Co: St. Vincent NWR at Cabin bridge (10:30 am to 11:30 am)

*Scincella lateralis* – 1 adult under palm frond next to log

*Anolis carolinensis* – 2 adults sunning on prickly pear cactus (green)

*Coluber constrictor* – 1 clutch 10 hatched eggs in decaying Cabbage Palm log

Ate lunch from 11:30 am to 1:15 pm.

Florida: Franklin Co: St. Vincent NWR along Dead End Road One (1:15 pm to 2:00 pm)

*Kinosternon subrubrum* – 1 adult in Cabbage Palm stump cavity

*Scincella lateralis* – 1 adult under palm frond

*Anolis carolinensis* – 2 adults under Cabbage Palm log (brown)

*Eumeces laticeps* – 1 subadult inside upright Cabbage Palm

*Coluber constrictor* – 1 clutch 9 hatched eggs in decaying Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR, 100 m N jct. Road B & D  
on Road D (2:00 pm to 3:00 pm)

*Hyla squirella* – 1 adult in rotten Pine Tree stump

*Eumeces laticeps* – (1 subadult + 1 adult female) both in rotten Pine Tree stump

*Thamnophis sauritus* – 1 subadult in rotten Pine Tree stump

*Sistrurus miliarius* – 1 juv under Live Oak log on white sand

Florida: Franklin Co: St. Vincent NWR, N edge Oyster Pond on  
Rattlesnake Road (3:00 pm to 4:00 pm)

*Apalone ferox* – 2 adults; shell parts only; found on edge Oyster Pond

*Scincella lateralis* – 2 adults under palm frond

*Crotalus adamanteus* – 1 adult active by day in tall grass near Oyster Pond

*Elaphe guttata* – 1 large adult sunning on large log

*Thamnophis sauritus* – 1 large adult sunning on large log

8 January 2000

Kelly & Lisa Irwin departed for Clemson, South Carolina, at 9:30 am. Drove field assistant Jerry D. Collins to Panama City airport at noon. Flight left at 2:05 pm. Upon return to lodging, Thom Lewis called to inform me that Terry Peacock had collected the following:

Florida: Franklin Co: St. Vincent NWR at jct. Windmill Road & Road G, E end of Island

*Deirochelys reticularia* – 1 adult (photographed) – new island record 1

Coll: Terry Peacock

10 January 2000

TWT, JTC, SLC, & ECM left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 9:30 am to 3:00 pm. Temperature at 7:45 am was 66F. Cloudy with moderate rain. Heavy

rain previous evening. Spent day collecting GPS coordinates for wood and sheet metal structures, and observed the following:

Florida: Franklin Co: St. Vincent NWR at Wood Structure 1

N29-40-45.3, W85-12-34.1 (9:45 am) Cloudy

*Amphiuma means* - 1 young adult found dead in freshwater pool (KU 000000)

Florida: Franklin Co: St. Vincent NWR along Rattlesnake Road on N edge Oyster Pond

N29-38-38.9, W85-08-53.1(10:15 am to noon) Cloudy

*Scincella lateralis* - ±25 adults under debris

*Coluber constrictor* - 1 clutch 10 hatched eggs in decaying Cabbage Palm log

*Crotalus adamanteus* - 1 4-foot adult active by day

*Sistrurus miliarius* - 1 large adult at base of tree partially under palm frond

*Virginia striatula* - 1 adult in decaying Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR on W edge Oyster Pond

N29-38-39.6, W85-08-54.0 (12:30 pm to 1:00 pm) Partly cloudy

*Hyla squirella* - 1 meta young around pond

*Scincella lateralis* - 1 adult under Wood Structure 19

*Eumeces laticeps* - 1 subadult in decaying Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR on Dune Road

N29-38-18.3, W85-08-37.2 (1:15 pm) Sunny

*Anolis carolinensis* - 1 adult active on log (brown)

Florida: Franklin Co: St. Vincent NWR on Dune Road

N29-37-54.5, W85-06-58.8 (2:00 pm) Sunny

*Crotalus adamanteus* - 1 4-foot adult sunning near *Gopherus* burrow

Florida: Franklin Co: St. Vincent NWR on Dune Road

N29-37-57.2, W85-06-36.3 (2:20 pm) Sunny

*Gopherus polyphemus* - fresh tracks at burrow

11 January 2000

TWT, JTC, SLC, & ECM left lodging for SVNWR at 7:40 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 9:30 am to 5:00 pm. Sunny. Spent day collecting GPS coordinates for wood and sheet metal structures, and observed the following:

Florida: Franklin Co: St. Vincent NWR, Red Wolf Holding Pen on Road B

N29-38-25.3, W85-08-07.3 (9:45 am to 10:30 am)

*Scincella lateralis* - 1 adult under debris

*Thamnophis sauritus* - 1 juv in decaying Cabbage Palm log

*Sistrurus miliarius* - 1 adult in decaying Cabbage Palm log

Florida: Franklin Co: St. Vincent NWR, Road B

N29-38-13.8, W85-07-38.0

*Pseudemys* sp. - shell parts only

*Scincella lateralis* - 11 adults active under debris  
*Eumeces laticeps* - 1 large adult male in Cabbage Palm  
*Virginia striatula* - 1 adult in debris + 1 shed skin

Florida: Franklin Co: St. Vincent NWR, Road B

N29-38-02.0, W85-06-41.9

*Scincella lateralis* - 2 adults; 1 active + 1 under palm frond

Florida: Franklin Co: St. Vincent NWR, Road E

N29-39-11.3, W85-07-47.6

*Scincella lateralis* - 1 adult under palm frond

Florida: Franklin Co: St. Vincent NWR, Road 4 (Big Bayou Road) at Ferry Barge Hurricane Tie-up

N29-40-17.6, W85-08-37.8

*Eumeces laticeps* - 1 subadult under pine bark

Florida: Franklin Co: St. Vincent NWR, Road G

N29-40-40.7, W85-09-40.6

*Eumeces laticeps* - 1 large adult female in Cabbage Palm

Florida: Franklin Co: St. Vincent NWR, Picaline Road

N29-40-54.9, W85-10-21.9 (4:00 pm)

*Alligator mississippiensis* - 5 juvs (1-2 ft) in pond (w nest) 200 feet S of Picaline Rd

*Masticophis flagellum* - clutch of 5 hatched eggs in Cabbage Palm

12 January 2000

TWT, JTC, SLC, & ECM left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 9:15 am to 2:00 pm. Sunny. Spent day collecting GPS coordinates for wood and sheet metal structures, and observed the following:

Florida: Franklin Co: St. Vincent NWR, Dune Road at Structures 5-6

N29-38-01.1, W85-06-09.5

*Scincella lateralis* - ±40 adults under palm fronds

*Terrapene carolina* - adult shell only

Florida: Franklin Co: St. Vincent NWR, Dune Road

N29-37-55.8, W85-06-48.8

*Elaphe guttata* - juv under pine bark (photographed)

Florida: Franklin Co: St. Vincent NWR, Dune Road

N29-37-54.0, W85-07-05.7

*Cnemidophorus sexlineatus* - adult in sand under log

*Coluber/Masticophis* - 17 hatched eggs in Cabbage Palm log

*Elaphe guttata* - juv under pine bark (photographed)

Florida: Franklin Co: St. Vincent NWR, Oyster Pond Restoration Area, Road A

N29-38-16.1, W85-08-28.2  
*Alligator mississippiensis* - 2 four foot specimens sunning  
*Apalone ferox* - 1 adult sunning  
*Pseudemys nelsoni* - 3 adults sunning

Florida: Franklin Co: St. Vincent NWR, Road A

N29-38-33.7, W85-09-00.0  
*Coluber constrictor* - 1 adult AOR (photographed)

Florida: Franklin Co: St. Vincent NWR, jct. Dune Road & Road B

*Deirochelys reticularia* - 1 adult AOR (photographed) – new island record 2  
Coll: Thom Lewis

13 January 2000

TWT, JTC, SLC, & ECM left lodging for SVNWR at 7:30 am. Drove to Indian Pass ferry and rode over to island to collect herps on St. Vincent National Wildlife Refuge from 9:15 am to 2:45 pm. Sunny & hot. Spent day collecting final GPS coordinates for wood and sheet metal structures, and observed the following:

Florida: Franklin Co: St. Vincent NWR, Road A (10:15 am)

N29-40-33.7, W85-12-00.6  
*Rana sphenocephala* – 2 tadpoles in roadside freshwater pool  
*Scincella lateralis* – 1 adult under log

Florida: Franklin Co: St. Vincent NWR, Road A (10:25 am)

N29-40-30.1, W85-11-53.0  
*Rana sphenocephala* – ±25 tadpoles in roadside freshwater pool

Florida: Franklin Co: St. Vincent NWR, Road A

N29-40-30.1, W85-11-49.1  
*Eumeces laticeps* – adult female at base of upright Cabbage Palm  
*Elaphe guttata* – juv under bark of upright pine  
*Virginia striatula* – adult under sphagnum moss

Florida: Franklin Co: St. Vincent NWR, Road A

N29-40-00.8, W85-10-48.8  
*Rana sphenocephala* – 7 tadpoles in roadside freshwater pool  
*Sistrurus miliarius* – juv under pine log

Florida: Franklin Co: St. Vincent NWR, Road A (12:45 pm)

N29-38-52.6, W85-09-15.3  
*Cnemidophorus sexlineatus* – 1 adult active by day  
*Scincella lateralis* – 3 adults; 1 under log, 1 in open, 1 under palm frond

Florida: Franklin Co: St. Vincent NWR, Wood Structures 17-20/37-40 (1:00 pm)

N29-38-37.1, W85-08-55.4  
*Acris gryllus* – 1 adult active in pond-edge vegetation  
*Alligator mississippiensis* – 2 juvs in pool  
*Pseudemys nelsoni* – 2 adults in pool

*Pseudemys nelsoni* – complete shell (KU 000000)  
*Anolis carolinensis* – 1 adult  
*Thamnophis sauritus* – 1 subadult along margin of pool

Florida: Franklin Co: St. Vincent NWR, Road E at Back Slough (2:00 pm)

N29-38-28.0, W85-07-02.1

*Alligator mississippiensis* – 1 five-foot specimen sunning

Florida: Franklin Co: St. Vincent NWR, Oyster Pond Restoration Area (2:45 pm)

N29-38-15.7, W85-08-28.8

*Alligator mississippiensis* – 1 eight-foot specimen sunning

Florida: Franklin Co: St. Vincent NWR, Road A (2:50 pm)

N29-38-24.7, W85-08-49.0

*Crotalus adamanteus* – 1 specimen (15-20 inches) AOR

14 January 2000

Thom Lewis caught and gave us the following:

Florida: Franklin Co: St. Vincent NWR, jct. Road D & Road 4

*Regina rigida* – 1 adult found dead (KU 000000)

Coll: Thom Lewis

15 January 2000

JTC, SLC TWT, & ECM met Thom & Jo Anne Lewis at Indian Pass and ferried over to SVNWR at 10:30 am to search *Gopherus* burrows with video cam and herps in general. Weather was cool and sunny. Observed the following:

Florida: Franklin Co: St. Vincent NWR

N29-38-00.5, W85-06-25.1

*Gopherus polyphemus* – 1 adult observed in burrow with video camera

Florida: Franklin Co: St. Vincent NWR

N29-38-01.4, W85-06-27.1

*Gopherus polyphemus* – 1 adult observed in burrow with video camera

Florida: Franklin Co: St. Vincent NWR

N29-38-00.5, W85-06-29.7

*Gopherus polyphemus* – tracks observed at burrow

Florida: Franklin Co: St. Vincent NWR

N29-37-57.0, W85-06-37.5

*Gopherus polyphemus* – 1 adult observed in burrow with video camera

Florida: Franklin Co: St. Vincent NWR

N29-37-54.1, W85-07-09.0

*Gopherus polyphemus* – 1 adult observed in burrow with video camera

Florida: Franklin Co: St. Vincent NWR at Red Wolf Pen  
*Opheodrys aestivus* – 1 adult under log (photographed)

Florida: Franklin Co: St. Vincent NWR on Road A

N29-38-20.8, W85-08-44.5

*Anolis carolinensis* – 1 adult climbing pine tree

*Eumeces laticeps* – 2 adults under pine bark

*Elaphe obsoleta* – 1 adult under railroad ties (photographed)

NOTE: Distance by road from lodging on The Plantation on St. George Island to Indian Pass on the mainland across from SVNWR was 41 miles (82 miles round trip).
